RDM	Man: 5253 Model: 12 Pers: 4
Details	[DMX Untested] [RDM Untested] [DMX Footprint 8]
Channels	1:Pan, 2:Tilt, 3:Position MSpeed, 4:Position Reset, 5:Red, 6:Green, 7:Blue, 8:White
Lamp Controls	Position Reset
User Notes	Fixture has on/off switch Fixture has pan and tilt locks Set menu option DMX Preset to Mode 4 for this personality Ch 3 - Set menu option Pan/Tilt mode to Speed for this channel to work correctly
Known Issues	Ch 4 DMX 50-89 - User manual says these ranges activate Position MSpeed Mode and Position Blink DmxMacros. I believe they do not work in this mode however as there isn't a shutter channel.

Revision	8 (28 Jun 2012)
Details	[DMX Caution] [DMX Footprint 5]
Channels	1:Shutter Strobe, 2:Intens, 3:Strobe Duration, 4:Scroller, 5:Scroller MSpeed
User Notes	DMX spec in user manual is inadequate, use personality with caution
Known Issues	Ch 3 - User manual says this channel is "Close to Far" but it refers to Duration (presumably Pulse Duration) so do not understand the description Ch 4 DMX 0-144 - User manual does not give a DMX range to select color yellow so have had to guess and massage the other ranges. Ch 4 DMX 145-159 and 176-191 - User manual says these ranges are color changing clockwise and counter clockwise but believe this channel actually controls a scroller. Do not know what these ranges actually do. Ch 4 DMX 208-255 - Have described as Scroller Random.
