Lamp Controls	Fixture Global Reset
Known Issues	Ch 1, 2 - User manual is unclear if any of the position macros in channels 7 or 9 override these channels Ch 3 - DMX spec for this channel has many undefined ranges. Have assumed they are half colors. Ch 6 - User manual is unclear if this channel is also position mspeed. Ch 7 - User manual does not say what the default value for this channel should be to give normal pan/tilt control of fixture Ch 9 DMX 230-249 - User manual shows lamp off in this range, but clearly states fixture has a halogen lamp. Assume lamp off is a typo therefore

Lamp Controls	Fixture Global Reset
User Notes	Fixture has on/off switch
Known Issues	Believe this fixture is a rebadged GLP unit based on ch 5 (compare with Patend Light), but do not know which one. Ch 5 - User manual does not say what default value for this channel should be. Could be in range 48-63 (ie pan and tilt max). Ch 6 DMX 164-208 - User manual a bit confused about this range Ch 7 DMX 176-255 - Have assumed these ranges are wheel spin as per Mighty Scan ch 4

Known Issues	No user manual available when writing personality

Manufacturer	Color Kinetics
EOS Name	iColor_Cove_EC_7

Revision	9 (29 Feb 2012)
Details	[DMX Untested] [DMX Footprint 3]
Channels	1:Red, 2:Green, 3:Blue
Known Issues	No user manual available when writing personality

Manufacturer	Color Kinetics
EOS Name	iColor_Cove_LT_12
Revision	9 (29 Feb 2012)
Details	[DMX Untested] [DMX Footprint 3]
Channels	1:Red, 2:Green, 3:Blue
Known Issues	No user manual available when writing personality

Manufacturer	Color Kinetics
EOS Name	iColor_Cove_LT_6
Revision	9 (29 Feb 2012)
Details	[DMX Untested] [DMX Footprint 3]
Channels	1:Red, 2:Green, 3:Blue
Known Issues	No user manual available when writing personality

Manufacturer	Color Kinetics
EOS Name	iColor_Cove_MX_PwrCr_16B
Carallon Name	iColor Cove MX Powercore 16 bit
Revision	7 (29 Feb 2012)
Details	[DMX Untested] [DMX Footprint 6]
Channels	1&2:Red, 3&4:Green, 5&6:Blue
User Notes	Mode can only be set by using QuickPlay Pro

Manufacturer	Color Kinetics
EOS Name	iColor_Cove_MX_PwrCr_8B

Carallon Name	iColor Cove MX Powercore 8 bit
Revision	12 (29 Feb 2012)
Details	[DMX Untested] [DMX Footprint 3]
Channels	1:Red, 2:Green, 3:Blue
Known Issues	No user manual available when writing personality

Manufacturer	Color Kinetics
EOS Name	iColor_Cove_NXT_12
Revision	9 (29 Feb 2012)
Details	[DMX Untested] [DMX Footprint 3]
Channels	1:Red, 2:Green, 3:Blue
Known Issues	No user manual available when writing personality

Manufacturer	Color Kinetics
EOS Name	iColor_Cove_NXT_6

User Notes	All three white channels have the same color temperature according to DTS tech support Set menu option Mode to 10Ch for this personality Ch 3 - User manual says to set menu option Red/Min to 0 and Red/Max to 255 for red channel to work correctly, which is from the RGBA version of the fixture. Do not know if this WWSA version has different menu options Ch 4 - User manual says to set menu option Gree/Min to 0 and Gree/Max to 255 for green channel to work correctly, which is from the RGBA version of the fixture. Do not know if this WWSA version has different menu options Ch 5 - User manual says to set menu option Blue/Min to 0 and Blue/Max to 255 for blue channel to work correctly, which is from the RGBA version of the fixture. Do not know if this WWSA version has different menu options Ch 6 - Set menu option Ambr/Min to 0 and Ambr/Max to 255 for amber channel to work correctly
Known Issues	Not sure if this fixture has a 6 channel mode This WWSA version of the Helios has a very similar DMX spec to that for the RGBA, including some things that should probably have been changed such as color temperature settings. Use with caution Ch 8 - User manual does not explain what this channel does when in Smooth RGB linear Hue correction mode

Known Issues	DMX spec in user manual is lacking detail, use personality with caution User manual does not explain relationship between channels 1-3, 4, and 6, and which takes priority over which Ch 4 DMX 14-255 - Presume this range selects several different macros but user manual does not say. Ch 6 DMX 48-245 - Presume this range selects several different macros but range does not divide equally into 24 so cannot define them.

Known Issues	Lamp off macro will only work with firmware version 2.2 onwards. Ch 7 - Do not know if the position macros need channels 5 or 6 to control speeds Ch 8 - DMX 100-127 - User manual does not say what this range does. Guess it is color wheel open Ch 10 - User manual says that DMX 10-19 is shutter close 1 and DMX 20-29 is shutter close 2, but does not say what the difference is between the two Ch 10 DMX 100-250 - User manual says this range is shutter close, but it is the largest range in the channel so guess it might actually do something useful - strobe random maybe?
